

COMPANY OVERVIEW

Jewel Isaac, LLC is an Alaska general contractor founded in 2016, headquartered in Fairbanks with an office in Anchorage and crews working statewide. We self-perform commercial, government and defense, industrial, mining, and oil & gas construction, from ground-up builds and design-build to renovations, tenant improvements, and workforce housing. Owner-led with two decades of Alaska construction experience, we control the critical path with our own crews and deliver in the most remote, cold-climate conditions in the state.

CORE COMPETENCIES

- General contracting & construction management
- Design-build and design-bid-build delivery
- Self-perform concrete forming & rebar, framing, drywall & finishes, roofing, siding, and casework
- Ground-up commercial construction & building envelopes
- Renovations & tenant improvements, including occupied facilities
- Federal & state facility renovations (IDIQ / task order)
- Workforce housing, man camps & modular facility setup
- Site utilities, civil coordination & remote-site logistics

DIFFERENTIATORS

- Self-perform the critical path with in-house crews for tighter schedule, quality, and cost control
- Statewide reach with deep Interior / Fairbanks strength and remote, off-road-system experience
- Rated 4.9 stars across 70+ Google reviews, with client relationships spanning 20 years
- Alaska-Native-affiliated teaming for set-aside and federal work through our Minto Global North partnership
- Approximately 25 Alaska-based staff, 75,000 SF shop and 7,000 SF office, and up to \$10M bonding capacity

CAPACITY & APPROACH

Resources

Approximately 25 Alaska-based professionals including carpenters, laborers, superintendents, project managers, and office support; a fleet of trucks, trailers, forklifts, manlifts, and excavation equipment; and 75,000 SF of shop and 7,000 SF of office space in Fairbanks, with an Anchorage office.

Quality Control

Project-specific QA/QC plans, preconstruction constructability review, qualified and vetted subcontractors, staged inspections and testing, and full documentation with corrective-action tracking.

Safety

OSHA-aligned safety program with leadership commitment, orientation and toolbox training, job-site inspections and audits, hazard assessment, PPE enforcement, and incident reporting. Safety records and EMR available on request.

Delivery Methods

Design-build · CM at risk · hard-bid / design-bid-build · IDIQ / task order / JOC · negotiated / time & materials.
